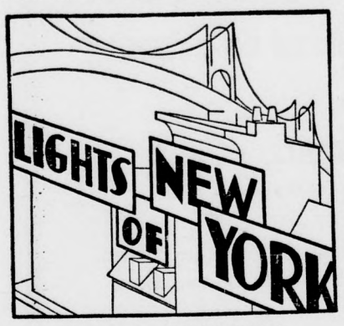
MENLO PARK RECORDER

A PAPER DEVOTED TO THE BEST INTERESTS OF MENLO PARK AND SAN MATEO COUNTY

VOLUME 16 — MENLO PARK, SAN MATEO COUNTY, CALIFORNIA, Friday, April 28, 1939 — No. 29



By L. L. STEVENSON

It is possible that when spring comes, new Treasury department regulations will govern the issuing of passes to those who wish to go to the piers to welcome friends and relatives arriving on ocean liners. Under present rules, only one pass for each passenger is permitted. To enforce such a regulation would necessitate checking the entire passenger list of each ship. What a task that would be can be imagined when it is known that from 500 to 700 applications for such passes are made each day at the customhouse. The procedure is simple. The applicant merely fills in a blank, which has spaces for his name, the name of the passenger and the ship and his relationship to the passenger. If the clerk handling the application doesn't happen to remember a request involving the same passenger, the pass is issued. Hence, few passengers are welcomed by only one pier visitor. Usually there is a whole party waiting for the ship to dock.

* * *

Limitations on the number of pier passes have a practical purpose. The pass admits the holder to the baggage enclosure. When a liner docks, the pier immediately becomes a place of great activity. Baggage must come ashore and be inspected by customs officials as quickly as possible. The giant liners of today have huge piers. But they also attract huge crowds. The crowds get in the way and cause confusion and delay. Customs men and police at the gates are firm in their refusal to admit any except holders of passes. In fact, those gates are just about the only ones in New York that can't be crashed. The trouble is that too many passes are issued. A recent arrival on one of the big liners found 23 friends waiting for him on the pier.

* * *

Barring all visitors was considered at a recent conference of officials who are wrestling with the problem. It is doubtful if that will be done, however, because of protests by travelers and shipping interests. But if they can be worked out, new and more effective measures of limitation will be put into effect before the rush season next summer.

* * *

When Frankie Burke, Jimmy Cagney's double, came here for the opening of "Angels With Dirty Faces," he stopped at the Warwick hotel. Burke, whose real name is Vasselle and whose family comes from southern Italy while Cagney's comes from southern Ireland despite their similarity in features, was discovered hopping bells in a hotel down in Las Vegas, N. M. His home is in Brooklyn and when he reached his seventeenth birthday, he started out looking for a job and didn't find it until he reached Las Vegas. One of the places in New York where he applied in vain was the Warwick hotel.

SCOUTS PLAN WHIST PARTY

Scouts of Troop 107 are sponsoring a card party to be held at the Central School on Friday night, May 5. Proceeds will go into the Camp fund.

S.P. Announces Economy Train For SF-LA Run

★

Economy train service, of the same type which has proven extremely popular on transcontinental routes, will be introduced by Southern Pacific on the San Francisco-Los Angeles coast line run May 7, it was announced yesterday by F. S. McGinnis, vice president of the railroad.

Inaugurating the new service, the present "Coaster" will be operated on a considerably faster schedule, will carry chair cars and tourist sleepers exclusively and will feature economy meals, and lounge facilities for sleeping car passengers, McGinnis said.

Schedule of the Coaster will be cut 45 minutes from the present southbound time and 55 minutes from the present time northbound, providing a later and more convenient departure time of 7 p.m. from both terminals. Present arrival times of 8 a.m. in Los Angeles and 7:50 a.m. in San Francisco will be maintained.

Othr changes efective May 7 include conversion of the Sunset Limited into an all-Pullman train between San Francisco and Los Angeles, and substantial improvement in schedules between Ookland and Los Angeles via the coast lne. No changes wll be made n the present fast schedules of the Lark or Daylight between San Francisco and Los Angeles.

LOCAL BRIDE-TO-BE IS HONORED WITH LUNCHEON

Complimented at a luncheon on Monday by Mrs. Carroll T. Harris at her Atherton home was Miss Audrey Shortlidge, who is to become Mrs. Robert J. Tripp May 27 at Trinity Episcopal Church in Menlo Park.

The table, covered with a lace cloth, was adorned with pink tulips, and matching glassware. On the sideboard was a large weding cake before a background of white stock and iris. Tall white candles completed the decoration.

Guests were the honoree; Mrs. B. F. Shortlidge, her mother; Mrs. Gordon Dennis, her sister, who is to be matron of honor; her fiance's mother, Mrs. D. D. Tripp Mrs. Chas. Whorton, Mrs. Irvine Hyman, Mrs. J. L. Hampton, Mrs. J. W. Jackson, Miss Sophia Webster and Miss Ruth Woolsey.

MENLO SCHOOL POTTERY DISPLAYED IN STORE WINDOW

The pottery made by Menlo Park school pupils and adult groups in the Recreation Section of Works Progress Administration that was on display at the Golden Gate International Exposition in the Recreation Department there has been placed in the window of the Mc Murray Radio Shop just south of the Post Office in Menlo Park. The articles on display represent work done by each of the grades from the 2nd to the 8th and by the adult classes conducted by Mrs. Sarah L. Moore. The work received such high compliments from the Exposition visitors and Supervisors in charge of the Recreation Department there that Mrs. Moore was requested to place it on display in Menlo Park.

Dr. Campbell In Statement On European Problem

★

Present day European dissension is the result of a tension between satiated and unsatiated countries and will not end until that tension is alleviated, states Dr. Earl C. Campbell, political science prefessor at San Jose State College.

"The anti-agression states have not been under economic pressure as have the aggressor staes, and have been unwilling to make concessions sufficient to relieve this pressure", he said.

"The imperialistic ideology which has been developed within totalitarian staes demands that this issue be solved by fair means or foul. They first tried diplomatic methods and when these failed they resorted to bluffs backed up by formidable military strengtn.

"What the totalitarian countries will do now that England and her anti-aggression allies are apparently determined to call these bluffs remains to be seen, but they are likely to press demands further if for no other reason than to divert attention from domestic difficulties", Dr. Campbell observed.

"The 'democratic' states have either of two alternatives open to them", the professor concludes. "The ymust either halt the acts of aggression begun by Italy and Germany by united action, or resign themselves to complete acceptance of their most extreme demands. The latter alternative involves a complete breakdown of the whole international order upon which peace and security may be established, and within which peaceful change can occur. To abandon that system in theface of aggression is to invite chaos and social revolution."

Coeds Not as Good Talkers as Mothers

So College Faculty Holds Little 'Gab Fests.'

COLUMBIA, MO.—The modern college girl, unlike her mother, has a difficult time when it comes to gossiping, according to a survey conducted at Stephens College for Women.

The survey, participated in by more than 950 freshman students, revealed that most college girls have speech defects or are backward when it comes to talking. As a result "gab fests" have been organized at the college dormitories so the girls can improve their speech.

The survey, conducted by Dr. Wesley A. Wiksell, professor of speech, showed that nearly 40 per cent of the girls suffered from noticeable speech defects.

Almost an equal number showed a lack of composure and a tendency to be "jittery" when they were called upon to express themselves. Only 6 per cent of the girls were able to talk freely, without restraint, and were without speech defects.

The survey revealed that the most common speech defects are a flat, throaty and nasal voice; slovenly diction, affected mannerisms and an inability to express simple ideas in clear language.

The survey is conducted at the college every year with an idea of eliminating speech defects.

"Our object is not to make public speakers," Dr. Wiksell said, "but to make the everyday human communications easier and more pleasant."

Dr. Wiksell said that one of the most troublesome of defects of speech to overcome is that of shyness manifested by the "inferiority complex" type. Such students are encouraged to become interested in a wide range of subjects through intensive reading, interviews and conferences.

These students are also asked to meet with faculty advisers frequently and are urged to take part in dormitory "gab fests."

School Patrols Will See Fair On Special Day

★

Thousands of boys and girls from all parts of California and from neighboring states will take part in a great mass demonstration of the School Safety Patrol movement on Friday, May 19, at the Exposition. The day has been designated School Safety Patrol day at Treasure Island by arrangement between Exposition officials and the California State Automobile Association, sponsor of the Patrol movement. Police and the school authorities, parent-teacher groups and various vivic organizations are actiely working to make the day asuccess.

Delegations of Patrol members from all over the west are expected to swell the total gathering of young safety workers to more than 12,000. A parade and review on the island and special entertainment for the Patrol will be presented.

PLAY SAFE

The Traffic Light is a symbol of safety to pedestrians as well as to motorists. To get its full measure of protection, obey the signals at all times whether driving or on foot. The National Safety Council says that the average wait for a red light is about 15 seconds— but those 15 seconds often spell the difference between safety and suicide.

Many motorists and pedestrians are too liberal in their interpretations of what the injunction to wait really means. Webster defines WAIT— "To stay or rest in expectation; to remain in readiness stationary or inactive. Safe driving and walking habits demand an absolute stop and a patient wait for the green signal.

Protect yourself by obeying literally the traffic signal.

SAN MATEO COUNTY TRAFFIC SAFETY COMMISSION

Einrid Neet, 21, Palo Alto and Lois Howell, 20 of Menlo Park were marriied this week in San Francisco.

Music Festival at Sequoia Auditorium Next Friday

The Sequoia Union High School Parent - Teacher Association and the night school will jointly sponsor the sceond annual instrumental music festival at the auditorium of the High School on Friday evening, May 5th at 8 o'clock.

The concert will be presented by the combined elementary school orchestras of the Sequoia district and the Westbay Symphony of the Sequoia adult evening school.

This program will celebrate the 101th anniversary of the teaching of music in the public schools of America and will demonstrate the scope of instrumental music in the Sequoia Union High School district. The high school orchestra and band will not be presented at this time as they were heard in their annual spring concert on April 24th.

The massed grammar school orchestras will be conducted by the various directors of each district; namely Marian Arnold of Ravenswood, Ronald Spink of Redwood City, Jack Charnan of San Carlos and Max Gelber of Menlo Park and the High School.

The harp, played by Phyllis Jones of San Mateo, will be a special feature of the evening.

Miss Pansy Abbott, County Superintendent of Schools of San Mateo County will be guest speaker of the evening. A guest conductor may be procured for one number of both orchestral groups as an added experience and enrichment for the participating groups.

Youths Take Over City For A Day

City executives of the future learned the ropes in Menlo Park on Wednesday.

Under the auspices of the Menlo Park Lion's Club, Boys' Day was observed in various municipal offices and in many business houses. At a dinner at Bertrand's at 6:30 o'clock, Frank Griffin of Sequoia Union High School, Redwood City talked on character education. This took the place of the regular Lion's Club regular meeting, and John Morey, president of the city school board, had charge of the program.

Richard Clark was mayor for the day, and Ernest Paramo,chief of police pro tem, were selected for their duties from among the students at the Central School. St. Joseph's School contributed the fire chief, Frank Bettencourt, and Postmaster, Joe Whalen.

Paul and Max Sowden, who acted as clerk and health officer, respectively, are students at the Ravenswood School.

Cadet Lieut. John Pond of the Park Military Academy was the bank manager and his fellow-student, Cadet Capt. Jack Davison, will serve as president of the board of education.

Several other boys assisted Menlo Park merchants in carrying on their busineese.

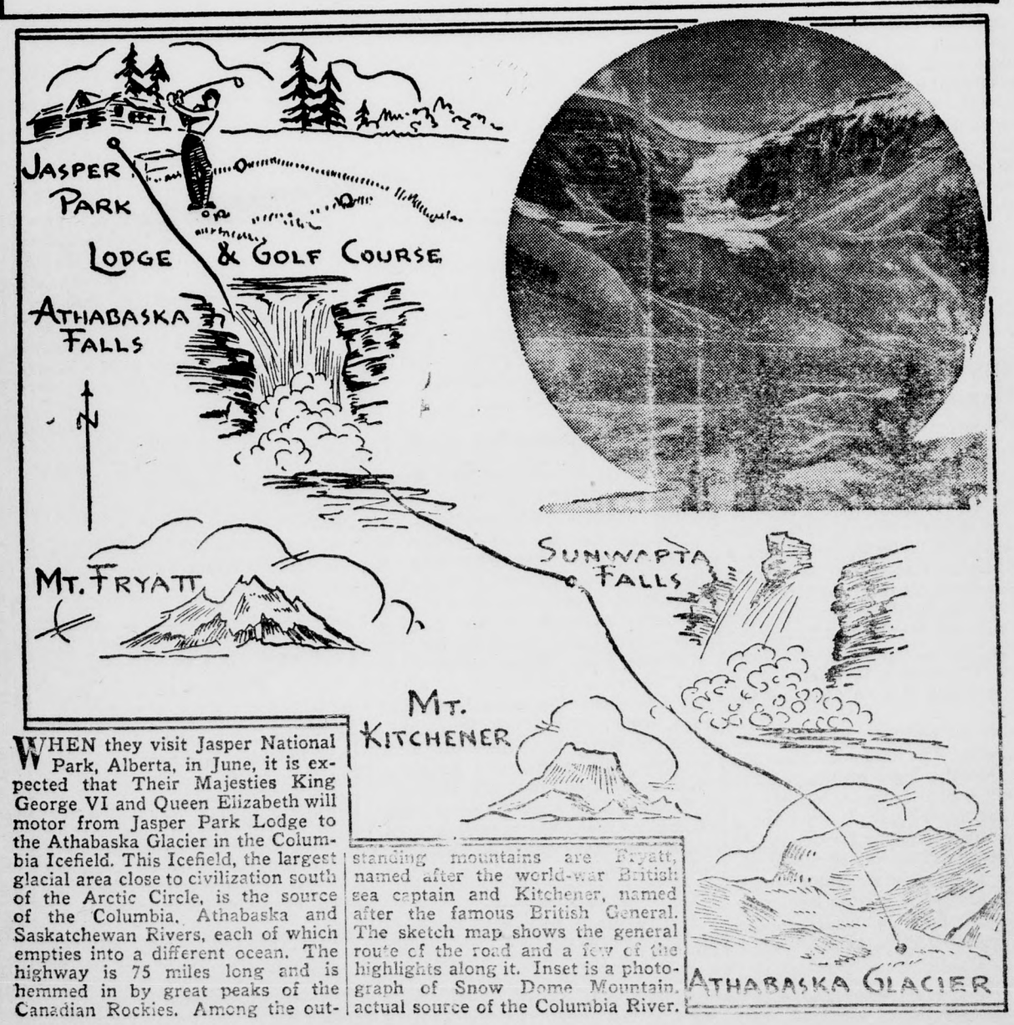
MRS. MOORE RETURNS FROM FAIR EXHIBIT WORK

Mrs. Sarah L. Moore returned last Friday from San Francisco where she has been since March 31st giving demonstrations of work in pottery and exhibiting the work of Menlo Park School in the Recreation Department of Works Progress Administration at the Golden Gate International Exposition. Mrs. Moore was scheduled again for a longer period at the Fair by the authorities there but the plan was vetoed by the Supervisor of the San Mateo County area and she was requested to return to the work in the Menlo Park School.

BLIND SOCIETY WILL SPONSOR PROGRAM APRIL 30

Th friends of the blind are invited to attend a program sponsored by the Local Blind Society on April 30th at the Community House in Palo Alto. The program that will be given is as follows. Selections by the Tuesday Coral Club, Mrs. Marie de Forest Emery leader. James Wilkie wil sing some Scottish songs accompanied by Harvey Barrett. There will ba a violin selection by Donald Blackman who will be accompanied by his mother Mrs. Blackman. Mr. James Nagel will give a talk on the Birthplace of Shakespeare. Ruth Quinen of San Francisco will also give a talk on the Blind Exhibit at Treasure Island.

King and Queen May Ride to Source of the Columbia River



WHEN they visit Jasper National Park, Alberta, in June, it is expected that Their Majesties King George VI and Queen Elizabeth will motor from Jasper Park Lodge to the Athabaska Glacier in the Columbia Icefield. This Icefield, the largest glacial area close to civilization south of the Arctic Circle, is the source of the Columbia, Athabaska and Saskatchewan Rivers, each of which empties into a different ocean. The highway is 75 miles long and is hemmed in by great peaks of the Canadian Rockies. Among the outstanding mountains are Fryatt, named after the world-war British sea captain and Kitchener, named after the famous British General. The sketch map shows the general route of the road and a few of the highlights along it. Inset is a photograph of Snow Dome Mountain, actual source of the Columbia River.

Quality Ice Cream . . . .

8:00 a. m.—Holy Communion.
9:30 & 11:00 a. m.—Junior Church
11:00 a. m.—Morning Prayer and sermon. The choir will present as offertory anthem "Lead me, O Lord, in Thy Righteousness" (Wesley) with Miss Jane Roth singing the contralto solo.

Wednesday and Thursday— all day and evening meetings of the Synod at Trinity Church, San Jose. Luncheon meeting of the Convocation of San Jose on Wednesday. All meetings and services open to the members and friends of the Church. It is hoped that a large delegation will go from Trinity.

May 10th there will be a musical concert. Watch for the details.

Christian Science Church Services

First Church of Christ, Scientist Byrant Street and Forest Avenue Palo Alto. Sunday Services at 11 a. m. and at 8 p. m.

Wednesday evening meetings at 8 o'clock.

In all Christian Science churches, branches of the Mother Church, The First Church of Christ, Scientist, in Boston, Mass., a Lesson-Sermon will be read Sunday, April 30, on the subject "Everlasting Punishment".

The Golden Text will be: "Shall not the Judge of all the earth do right?" (Gen. 18:25). Bible selections will include the following passages from Matthew 3:1, 11, 12: "In those days came John the Baptist, preaching in the wilderness of Judea, . . . I indeed baptize you with water unto repentance: but he that cometh after me is mightier than I, whose shoes I am not worthy to bear: he shall baptize you with the Holy Ghost, and with fire: Whose fan is in his hand, and he will thoroughly purge his floor, and gather his wheat into the garner; but he will burn up the chaff with unquenchable fire".

A passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, will also be included, which reads as follows: " It is 'easier for a camel to go through the eye of a needle' than for sinful beliefs to enter the kingdom of heaven, eternal harmony. Through repentance, spiritual baptism, and regeneration, mortals put off their material beliefs and false individuality. It is only a question of time when 'they shall all know Me (God), from the least of them unto the greatest' " (p. 241).

Christian Science radio programs sanctioned by the Christian Science Board of Directors of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass., and under the direction of the Committee on Publication for Northern California are on the air: Station KYA, 1230 kilocycles, Monday, Wednesday and Friday at 8:45 a. m.

Vandals Destroy Landmark Signs

A number of the new signs designating historical landmarks have recently been maliciously damaged by vandals, with the result that public feeling has become intensified against this type of vandalism, the California State Automobile Association declared in a statement today. The Association is official road signing agency for northern and central California, installing and maintaining signs under a cooperative arrangement with state and local governments.

With damage to road signs by vandals a long-standing problem, efforts to stamp out the practice are being intensified by law enforcement officers as a result of the special regard held by the public for landmark signs, latest targets of vandalism. In some instances the signs have been almost obliterated by gunfire and other means of mutilation.

The Association offers a standing reward of $25 for information leading to arrest and conviction of anyone who maliciously damages any official sign installed by the motorists organization.

18,553 Aliens Compelled To Leave U. S. in 1938

WASHINGTON.—James L. Houghteling, commissioner of immigration, said that 18,553 aliens were forced to leave the United States last year.

Houghteling's annual report to Secretary Perkins said 9,275 were deported on warrants and 9,278 others, who had been adjudged deportable, left at their own expense. The total leaving in the previous year was 17,617.

During the year ending last July immigration officers barred 8,066 aliens from entering. Immigrant arrivals numbered 67,895, compared with 50,244 in 1937 and 36,329 in 1936. The total was far below the quota of 153,774, Houghteling said.

Germans and Austrians, totaling 17,199, led a classification by races in the report designated 11,917 of the Germans as Jews.

Houghteling said there had been a steady decrease in the alien population since 1924, and estimated the total last July at 3,838,578. He said 162,078 were granted citizenship last year.

Young Man Conquers All Handicaps to Be Artist

LONDON.—Side by side with Augustus Johns and Wyndham Lewises in the New English Arts club's exhibition hangs a Canadian scene called "Prelude." It is the work of a 19-year-old Russian-born Canadian boy who endured many hardships on a 6,000-mile trip across land and sea to realize his dearest ambition.

Two years ago Eric Freifeld, who lived with his family in Alberta, determined to become an artist. Self-taught, he won two scholarships which enabled him to continue his studies.

During the last year he held three exhibitions, but London was his goal. Months ago he started to hitch-hike across the continent to Montreal, where he got a job on a cattle boat sailing for London.

On arriving here he submitted his work to some of the London galleries. To his joy, a picture depicting a scene in Vancouver was accepted by the New English Art club.

White Citizens Support African Medicine Men

JOHANNESBURG.—Efforts of the South African government to restrict the practice and numbers of medicine men and herbalists in Natal are meeting with obstacles.

Whites who are authorities in Zulu matters, as well as the natives themselves, are pleading for the medicine men. These tribal "doctors" have a knowledge of herbs not possessed by trained medical men. One medicine man told a government board that he could cure lunatics with herbs and asked a chance to make good his claim.

Because they have the confidence of the natives, the medicine men wield a mental influence often helpful in cures.

If you mean to profit, learn to please.

Dual Controls Used in School Driving Classes

SPRINGFIELD, ILL.—Driving instructors at 14 downstate high schools employ dual-control automobiles to teach students driving technique and rules, the division of highways announced today.

The division said that many of the other 630 high schools offering driver and highway instruction courses were providing actual driving practice for students in machines furnished by instructors and schools.

High schools employing dual-control automobiles were at Elgin, Belvidere, Moline, Carbondale and Charleston Teachers' College high school and Charleston high.

The division said preliminary arrangements are under way for the use of dual control-cars in high schools at Peoria, Spring Valley, Macomb and other downstate cities.

Professor Thinks Love Great Student Handicap

BIRMINGHAM.—Love is a great handicap to the accumulation of knowledge, according to Dr. Ray S. Musgrave, professor of psychology at Birmingham-Southern college.

Doctor Musgrave placed student romances at the top of the list of reasons for failures to pass courses. Next came parties and extra curricular activities.

The well-known "grudge against the professor" and financial worries also were listed as chief factors making for bad marks.

But love tops them all, Doctor Musgrave said.

"When a student is in love, he is unable to concentrate on his studies," he said.

Canadian Curl Is Priced at 25 Cents

REGINA, SASK. — Even the price of a curl interests the Saskatchewan government. The price schedules of various businesses, satisfactory to both employer and employee, are drawn up under the industrial standards act. In a recent schedule for the beauty parlor business, the price of a curl was set at 25 cents.

LEGAL NOTICE

NOTICE OF TRUSTEES' SALE UNDER DEED OF TRUST

NOTICE IS HEREBY GIVEN, that on Tuesday the 9th day of May, 1939, at the hour of 2:15 o'clock p. m. of said day at the Middlefield Road entrance to the County Courthouse, in Redwood City, County of San Mateo, State of California, the undersigned, E. T. Kruse and Parker S. Maddux, as trustees, will sell at public auction to the highest bidder for cash in lawful money of the United States of America the following described real property, situated in the County of San Mateo, State of California:

Lot Eighteen (18) in Block Seven (7) as said lot and block is so designated on the map entitled "MAP NO. 2, STANFORD PARK, MENLO PARK, SAN MATEO COUNTY, CALIFORNIA", which map was filed in the office of the Recorder of the County of San Mateo, State, of California, on April 2, 1913 in Liber 8 of Maps at page 46.

TOGETHER with all and singular the tenements, hereditaments and appurtenances thereunto belonging or in anywise appertaining, and the reversion and reversions, remainder and remainders, rents, issues, and profits thereof.

Said sale will be made to satisfy the obligations secured by, and pursuant to the power of sale conferred in and by, a certain deed of trust, executed by Bay City Investment Corporation, a corporation duly organized and existing under the laws of the State of California, having its office and principal place of business in the City and County of San Francisco, State of California, as trustor, to said E. T. Kruse and Parker S. Maddux, as trustees, for the benefit and security of The San Francisco Bank, a corporation, as beneficiary, dated June 1, 1937, and recorded on June 2, 1937, in the office of the Recorder of the County of San Mateo, State of California, in Volume 746 of Official Records, at page 253.

Notice of defaults in and breaches of said obligations and of the election of said beneficiary to cause said real property to be sold was recorded in the office of the Recorder of the said County of San Mateo, on February 1, 1939, in Volume 821 of Official Records, at page 353, to which said record reference is hereby made.

This notice is given in compliance with a demand heretofore made on the undersigned trustees by said beneficiary.

Dated: April 3, 1939.

E. T. KRUSE,
PARKER S. MADDUX,
As Trustees.

LEGAL NOTICE

NOTICE OF TRUSTEE'S SALE

On Saturday, the 29th day of April, 1939, at 10 o'clock A. M. of said day, on the steps of the City Hall in the City of San Mateo, County of San Mateo, State of California, N. D. Morrison and J. R. Murphy, trustees, or their attorney, will sell at public auction to the highest bidder, for cash, in lawful money of the United States of America, the following described real property situate in the City of Menlo Park, County of San Mateo, State of California, and described as follows:

Lot numbered forty-four (44), EXCEPTING THEREFROM the Northeasterly 25 foot strip conveyed to the Southern Pacific Railway Company, by Deed dated October 8, 1901, and record October 12, 1901 in Book 85 of Deeds at page 508, Records of San Mateo County, California, as shown on the map entitled "Subdivision of 11.88 Acre Tract near Menlo Park known as the Dominga Tract" filed in the office of the County Recorder of San Mateo County November 15, 1895 in Book "B" of Original Maps at page 49 and copied into Book 2 of Maps at page 75 thereof.

Said sale will be made to satisfy the obligation secured by and pursuant to the power of sale conferred in a certain deed of trust executed by Charles Hugh Smith and Nelly F. Smith, his wife, trustors, to N. D. Morrison and J. R. Murphy, trustees, for the benefit and security of Peninsula Building and Loan Association, a corporation, which said deed of trust is dated November 14, 1928, and recorded November 23, 1928, in the office of the County Reecorder of the County of San Mateo, State of California, in Volume 387 of Official Records at page 52, San Mateo County Records.

Notice of breach of said obligation and election to sell said property was recorded in the office of the County Recorder of the County of San Mateo, State of California, on December 21, 1938, in Volumne 822 of Official Records at page 143 thereof, San Mateo County Records.

TERMS OF SALE

Said parcel of property is to be sold for cash in lawful money of the United States; ten per cent (10%) thereof to be paid at the fall of the hammer to the undersigned, or their attorney, and the balance upon delivery of the deed, and if not so paid, then the said ten per cent (10%) shall be forfeited and the sale shall be void. Instrument of conveyance at the purchaser's expense, taxes to be borne by the purchaser.

DATED: April 5th, 1939.

NOTICE OF SALE OF REAL ESTATE UNDER DEED OF TRUST

In accordance with the terms and provisions and under the power of a certain Deed of Trust made and executed by RUBEN W. SELLECK and MARIE H. SELLECK, husband and wife, to SAN MATEO COUNTY TITLE COMPANY, a corporation, as trustee for F. J. FURNIVAL, an unmarried man, dated April 9, 1938, and recorded April 11, 1938, in Book 796 of Official Records at page 1, records of San Mateo County, California, given to secure a promissory note in favor of said F. J. Furnivall, and which said Note and Deed of Trust were duly assigned to G. S. RICE by Assignment recorded April 18, 1938, in Book 785 of Official Records at page 232, records of San Mateo County, and in pursuant to the notice of default and breach and election to sell by said G. S. Rice, and intention to cause the property mentioned and described in said Deed of Trust to be sold to satisfy the obligation of trustors secured by said deed of trust, which Notice of Default is dated January 11, 1939, and recorded January 12, 1939, in Book 826 of Official Records at page 38, records of San Mateo County and more than three months from the date of the recording of said Notice of Default and breach and election to sell having elapsed, and demand having been made by said assignee that the undersigned trustee sell all of said real premises, or such part thereof as it shall find necessary to sell in order to accomplish the object of this trust,

NOTICE IS HEREBY GIVEN that on Saturday, the 6th day of May, 1939, at the front door of the office of San Mateo County Title Company, at 733 Middlefield Road in Redwood City, San Mateo County, California, at the hour of 10:00 A. M. the undersignned trustee will sell at public auction to the highest bidder for cash in lawful money of the United States all that certain real property situate in the County of San Mateo, State of California, described as follows, to-wit:

All of Lot numbered ten (10) in Block numbered five (5) as said Lot and Block are numbered and delineated on that certain map entitled "Map of University Heights, San Mateo County" filed in the office of the County Recorder of San Mateo County on August 28, 1889, in Book "D" of Orignal Maps at page 52, and coped into Book 1 of Maps at page 96.

Dated: April 14, 1939.

LEGAL NOTICE

NOTICE OF TRUSTEES' SALE UNDER DEED OF TRUST

NOTICE IS HEREBY GIVEN, that on Tuesday the 9th day of May, 1939, at the hour of two o'clock p. m. of said day at the Middlefield Road entrance to the County Courthouse, in Redwood City, County of San Mateo, State of California, the undersigned, E. T. Kruse and Parker S. Maddux, as trustees, will sell at public auction to the highest bidder for cash in lawful money of the United States of America the following described real property, situated in the County of San Mateo, State of California:

Lot Twenty one (21) in Block Seven (7) as said lot and block is so designated on the map entitled "MAP NO. 2, STANFORD PARK, MENLO PARK, SAN MATEO COUNTY, CALIFORNIA", which map was filed in the office of the Recorder of the County of San Mateo, State, of California, on April 2, 1913 in Liber 8 of Maps at page 46.

TOGETHER with all and singular the tenements, hereditaments and appurtenances thereunto belonging or in anywise appertaining, and the reversion and reversions, remainder and remainders, rents, issues, and profits thereof.

Said sale will be made to satisfy the obligations secured by, and pursuant to the power of sale conferred in and by, a certain deed of trust, executed by Bay City Investment Corporation, a corporation duly organized and existing under the laws of the State of California, having its office and principal place of business in the City and County of San Francisco, State of California, as trustor, to said E. T. Kruse and Parker S. Maddux, as trustees, for the benefit and security of The San Francisco Bank, a corporation, as beneficiary, dated June 1, 1937, and recorded on June 2, 1937, in the office of the Recorder of the County of San Mateo, State of California, in Volume 749 of Official Records, at page 161.

Notice of defaults in and breaches of said obligations and of the election of said beneficiary to cause said real property to be sold was recorded in the office of the Recorder of the said County of San Mateo, on February 1, 1939, in Volume 831 of Official Records, at page 52, to which said record reference is hereby made.

This notice is given in compliance with a demand heretofore made on the undersigned trustees by said beneficiary.

Dated: April 3, 1939.

E. T. KRUSE,
PARKER S. MADDUX,
As Trustees.

JACKSON MADDUX Attorney at Law, 333 Montgomery Street, San Francisco, California.

Makes a Living Out of Plaster

OLMSTEAD FALLS, OHIO.—Father's unemployment was fortunate instead of tragic for the William Crowley family—they now have a thriving home industry which is profitable for all.

Crowley, temporarily without a job, decided to spend his time to some advantage and began experimenting with creating plaster figures. His studio was the family garage and his chief assistant, daughter Evelyn, who was convalescing from pneumonia. Eighteen-year-old Evelyn sketched the Crowley dog and other animals and her father followed the sketches in making his figurines.

Labor Is Divided.

Then the rest of the family joined forces.

"Here is the division of labor," Crowley explained.

"Evelyn makes the preliminary sketch, I do the plaster carving and molding, 15-year-old William Jr. is responsible for the casting, aided by Charles, who is 11, and Mrs. Crowley paints the figures. Eight-year-old Bob takes care of the jars and brushes. Our three dogs and three cats pose as models."

He said the family has perfected a durable composition for statues and a washable finish, but the formulas for both processes are secret.

"In less than a year in business we have sold more than 2,000 novelty art objects to shops in Cleveland and other cities, including Berea, Fairview, Ashtabula and Elyria. We have also sold some objects to Buffalo stores," Crowley said.

Comic Figures Made.

"The objects range from statues of Washington and Lincoln to comic cowboy figures.

"As for our factory, it has expanded until it includes the garage, furnace room and the summer kitchen."

He added that he is employed again, but he spends all his spare time working at home.

"Give up the business because I have a job again? No, I wouldn't think of doing that," he said.

"There are too many interesting things to find out about this line to give it up."

Shale Reserves Protect U. S. From Oil Shortage

NEW YORK.—America need not worry about exhausting the automobile fuel supply for at least 2,000 years, according to Hugh D. Miser, chief of the section of fuels of the United States geological survey.

Miser said a supply of bituminous substances, even larger than the billions of barrels of petroleum in known reserves, is sealed in shale reserves.

During the last 20 years new discoveries of petroleum have balanced consumption, Miser said. The extent of the nation's petroleum reserves rests largely with "the geologist to continue to aid in the increasingly difficult problem of discovery, with the engineer to improve drilling technique to increase recoveries and with the chemist to continue improvements in refining practice."

Cowboy Is Pained By a Horse on Him

BUTTE, MONT.—Old-time cowboys have a hard time maintaining the link between the past and the present. William J. Blondino, deciding on an auto instead of his horse for a trip to town, was arrested and jailed for drunken driving.

As he pined in his cell for the open spaces, the police allowed him to sell his car and pay his $50 fine. Returning to his horse, he broke his ankle trying to mount it and was taken to the hospital.

Dust Bowl Shrinking as Cover Crops Increase

AMARILLO, TEXAS.—The dust bowl is shrinking, farm leaders report, and the southern great plains region is in the best condition since 1932.

The regional advisory committee of land use for the southern great plains area—portions of Oklahoma, Texas, New Mexico, Kansas and Colorado—said that only 2,664,000 acres would be subject to possible damage by wind erosion this year.

More than 13,752,118 acres now are protected by cover crops, the report added.

Old Hobby Becomes Vocation for Clerk

Retires to Devote Time to Making Violins.

FORT WORTH.—The life of J. E. Stamps of Fort Worth, who for the last 35 years has repaired and built violins for great contemporary masters solely as a hobby, is changed now.

He has quit his job as a railway mail clerk and set himself up as a violin repairer and builder at his home.

Many secret dramas important to the world of music have occurred in the little workshop at Stamps' home.

An artist, in a fit of temper, smashed his $50,000 violin. The instrument — a Stradivarius — was brought to the stout, beaming, bespectacled amateur, Stamps, for repairing. Within a few weeks it was returned to the musician and still is in use.

Stamps has worked on the Stradivarius, valued at $100,000, of Francis MacMillan. He handled another famous instrument owned by the late Nicholas Longworth.

"And hundreds of people have come with violins which they hoped I would identify as Stradivarii," Stamps recalled. "But almost invariably they were disappointed."

He argues that violins 200 years old are not sweeter in tone, necessarily, than cheaper and newer ones. "Fifty years of seasoning is enough to give a violin a perfect tone," he said, and pointed out that several radio artists and symphony violinists use instruments he has made.

Stamps' favorite is the Guarnerius violin, although he seldom plays one himself. "It is more fun to make them," he explains, "and besides—I do that better."

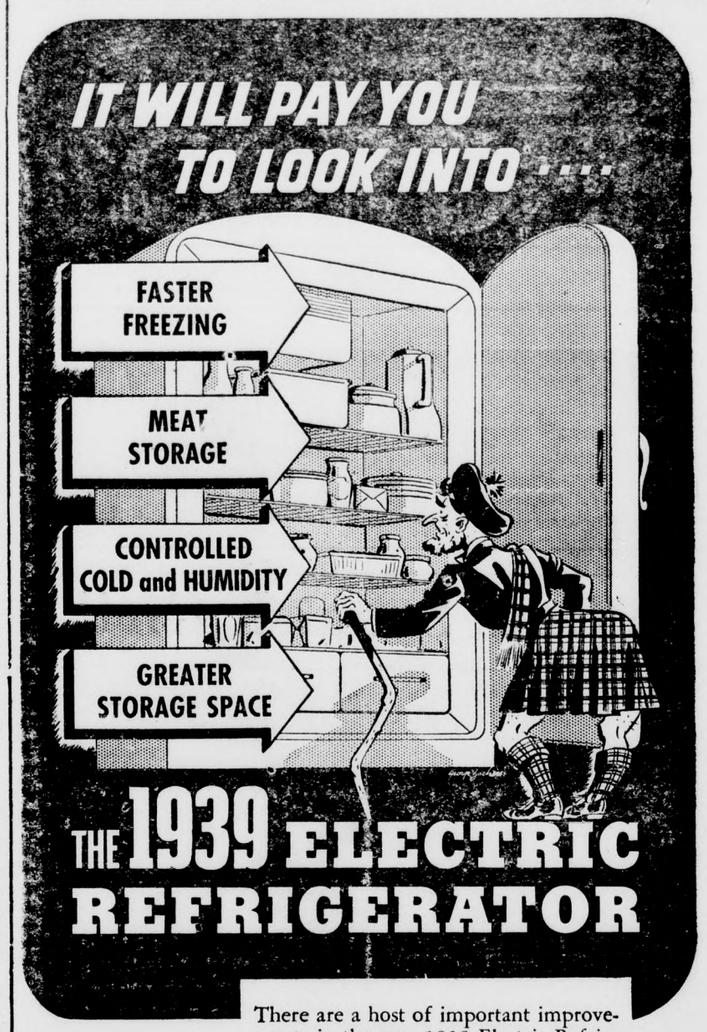
Stamps imports seasoned maple from Germany and Czechoslovakia. His instruments contain materials valued at about $50, and he sells them for as much as $500.

Native's Death Blamed To 'Pointing the Bone'

BRISBANE, AUSTRALIA.—"Pointing the bone," which corresponds among Australian aborigines with the "evil eye," caused the death of at least one native recently, according to Mount Isa police.

During a dispute one of the adversaries "pointed the bone" at his fellow tribesman, a man of about 40. The latter fled from the sinister omen and a little later was found dying. An autopsy report gave as the cause of death "obsession and persecution complex."

In "pointing the bone" the natives use the thigh bone of a turkey, topped with beeswax, which is said to be capable of scaring the victim to death.



Inside Facts

1 *Faster Freezing*—ice in one-third the time and twice as much of it.

2 *Meat Safe*—A big covered compartment keeps a week's supply of meat fresh and juicy.

3 *Controlled Cold plus Humidity* puts an end to wilting, shrinking and changing color.

4 *Greater Storage Space* gives approximately forty per cent more refrigeration.

5 *Cuts Current Cost*—new economy units—80% of the time use no current at all.

There are a host of important improvements in the new 1939 Electric Refrigerator that you should look into. It will pay you to do so—even if you now own an electric refrigerator.

When you compare these new electric refrigerators with models of five years ago you will note many remarkable betterments. Better planned interiors provide more storage space. Freezing is faster. Freezing compartments are larger. There are special cold storage compartments for meat. Controlled Cold plus High Humidity keeps fruits and vegetables crisp and fresh. And the new economy units use no more current than a low wattage light bulb.

It will pay you to see your electric dealer today and investigate the new 1939 Electric Refrigerator. Prices this year are lower than ever. There is a model to fit every household purse. Get the Inside Facts on the 1939 Electric Refrigerator now.

ELECTRIC APPLIANCE SOCIETY OF NORTHERN CALIFORNIA

116W-439

Our 85th Birthday

1854 - 1939

JUST 85 years ago, the San Francisco Accumulating Fund was established. This was succeeded, in turn, by the Savings and Loan Society, the San Francisco Savings Union, and the Mercantile Trust Company, which, by consolidation with American Bank, became today's American Trust Company.

In those long-ago days of this bank's beginning, there was a bare handful of towns in the territory we now serve. There was San Francisco, a mushroom metropolis with 50,000 people, and the village of Oakland, newly risen among the green pastures of Rancho Peralta, with 2500. Sacramento was a cluster of 2500 buildings; and the towns of Stockton and San Jose were even smaller. Aside from these, there was hardly a settlement, in fact, scarcely a road or a square of plowed ground to suggest human presence.

But even in 1854, steamboats were plying between San Francisco and the river ports, distributing the goods brought by clipper ships around the Horn, and stage routes were fanning out, to be followed later by the railroads.

Today this territory is Northern California's pivotal area, with two thirds of the population and three quarters of the industrial production north of Tehachapi. Here are, not a few settlements, but nearly 100 incorporated towns and cities. Two million people live here. The yearly wholesale and retail turnover exceeds two billion dollars. Its industries produce one and a quarter billion dollars; its agriculture, over 100 million. Considerably more than a billion dollars in water-borne commerce flows through the Golden Gate to and from the various ports on the Bay and the rivers.

Logical, therefore, is the concentration of American Trust Company's banking system within this region. Our offices are placed to facilitate financial transactions within the area, and to bring metropolitan banking facilities within convenient reach of 80% of its people.

50,000 fewer typhoid fever deaths every year because of WATER purification!

TYPHOID fever—once a deadly scourge—will soon be conquered by modern science. This has largely been brought about by the purification process of removing disease-bearing bacteria from public water supplies. Many other dangerous germs are also destroyed by regular treatment of the water you use.

The California Water Service Company has invested nearly $500,000 in water purification facilities to provide—whenever and wherever necessary—for the clarification, softening, disinfection and laboratory control of water supplied.

Pirate Spanish Girl!

Zoe Del Lantis "went Spanish" the moment she entered the beautiful Mission Trails Building on Treasure Island. This exhibit building, one of nine in the county group established by the California Commission for the Golden Gate International Exposition, is attracting thousands of visitors to the Golden Gate International Exposition and Manager H. M. Horrworth and staff are kept busy answering questions about the counties represented—San Mateo, Santa Clara, Santa Cruz, San Benito, Monterey, San Luis Obispo, Santa Barbara.

GOLDEN EMPIRE BEGINS CENTENNIAL FETE MAY 1

California motorists and visitors coming from other states to see the Exposition will have an added attraction to place on their touring itineraries with the opening of the Sacramento-Golden Empire Centennial Celebration May 1. The touring bureau of the California State Automobile Association reports widespread interest in the event, indicated by many inquiries from motorists.

The celebration will commemorate the 100th anniversary of the founding of Sacramento by General John A. Sutter. The program will present a succession of festive features, continuing through the summer.

College, junior college, and high school athletes will compete in the annual West Coast Relays at Fresno May 13. Events will be presented on the Fresno State College track.

Try to Conquer West's Deserts

Three-Year Test to Be Made of Feasibility of Certain Crops.

PHOENIX.—An attempt is to be made to conquer the arid deserts of the West, long a symbol of waste, by making them yield products necessary for human welfare.

As a result Dr. J. J. Thornber, professor of botany at the University of Arizona, will know in three years if it is possible to bring the desert under control and make it a boon to humanity. Dr. Thornber said the university will begin next spring to cultivate desert plants with the object of developing them to a point where they can be raised in commercial quantities for their products—which include medicines, rubber and fiber.

"I feel quite sure the desert is going to be of economic value to man instead of waste," Dr. Thornber said, "but it will take at least three years before we know how successful the experiments will be."

Rubber Plant Prominent.

The scientist said that if it is found that plants can be grown commercially the acreage needed for the Guayle plant alone will be "tremendous." The Guayle plant produces rubber.

"The experimentation will be done on the university farm at Tucson, although work on the milk-weed plant, also a rubber producer, may have to be carried to Yuma, where it is not so cold in the winter."

A sample box of a number of the plants was sent to Secretary of Agriculture Henry A. Wallace in Washington and the government was interested enough to send two investigators to look into the possibilities of establishing a laboratory for further experiments. The government report has not yet been made available.

First work of the experiment will consist of growing seven plants, several of which are believed to have medicinal properties.

The canaigre plant, which has a high percentage of tanin, is used in the tanning of fine leather, although it is too expensive for cheaper leathers.

The yucca plant, with its fibrous leaves, may prove to be very valuable if the fiber quality stands up under the intense cultivation, Dr. Thornber said.

Try Seeds and Cuttings.

The third plant to be cultivated is the guayule, which is abundant in southern Arizona.

"We intend to plant both seeds and cuttings from these plants and experiment on their cultivation," he said. "They are becoming increasingly important as a possible source of a rubber supply for this country. When first discovered, the plant contained only about 4 or 5 per cent rubber in its stalk, but now after cultivation and care, plants can be produced that contain 23 to 25 per cent rubber.

"One of our important jobs will be to determine if Indian wheat, whose seed is identical insofar as medicinal properties are concerned to psyllium, can be grown in commercial quantities. We already know how to gather it mechanically in a clean condition and we have been assured that tons of the seed could be used if a steady source is found."

This Man Still Prefers to Drive Horse and Buggy

NORTH EASTON, MASS.—This modern world has the automobile, the streamlined train and the superspeed airplane, but George W. McLauthlen, 88, still lives in the horse and buggy age.

For 30 years, up to a few months ago, he drove a horse and buggy six days a week to Brockton. Up to 10 years ago he was a shoe plant superintendent. He retired but still made the daily trips. Now, however, he goes to Brockton every other day.

His horse is "Hollyrood Blackstone," a one-time record trotter, who did a mile in 2:10.

In the last 30 years McLauthlen figures he has driven his horse and buggy about 150,000 miles. He added:

"I hope 10,000 more can be added to that before I hitch my buggy to a star."

McLauthlen says he is always being urged to go modern and ride in an automobile, but to every one he says:

"I'll stick to my horse."

Rhodesia Ruins Doubted As of Ancient Origin

CAPE TOWN.—The mysterious ruins at Zimbabwe, Southern Rhodesia, thought to be the creation of long-lost civilization, may be only 100 years old and built by Zulus.

That is the belief of Servaas D. le Roux, Rhodesian big game hunter, writing in "Die Burger." He rejects the theory that the ruins are thousands of years old.

He bases his theory on the botanical growths on the walls.

DIXON HORSE SHOW

Running races, stock judging, and a variety of entertainment will mark the Horse Show and Fair at Dixon May 13 and 14.

Rome-Berlin Highway Will Be Ready Early in 1942

ROME.—Proof of the anticipated permanency of Italo-German political friendship is the projected 830-mile highway, termed by Italians the "axis in concrete," which will connect Rome and Berlin by 1942.

Designed to link the two Fascist nations with a line of rapid communications slicing across Europe from the Mediterranean to the North sea and the Baltic, the new road has been under construction for the past 18 months. More than 50,000 workmen have been kept busy laying down Italy's 425-mile share.

From Rome, the highway runs due north to Florence and Bologna and continues through Trento and Bolzano, northern Italian outposts. After knifing through the strategic Brenner pass, it crosses Austria at Innsbruck and then continues through Munich and Leipzig to Berlin.

The Italian share, being constructed at a cost exceeding a billion and a half lire, is 40 feet wide with a 7-foot unpaved clearance on each side.

To shorten distances, tunnels have been carved deep in the mountains. Almost all cross-traffic passes either over or under the highway.

On the German side the highway will be divided into two one-way traffic lanes, with a cement-bordered line of trees running between them.

JUMPING FROG JUBILEE

Angels Camp will present its annual Jumping Frog Jubilee on May 20 and 21. This famous annual event is staged in a colorful setting of early mining days.

An entire week of festive enents welcoming former residents will be presented at Chico commencing May 14.

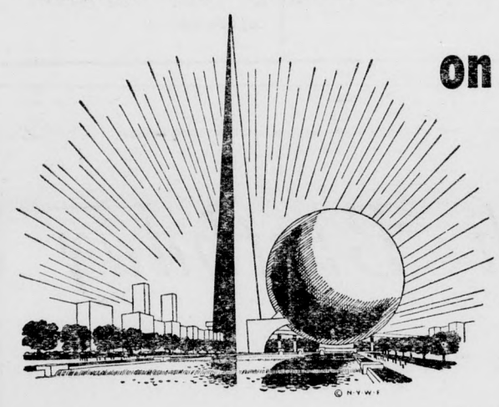
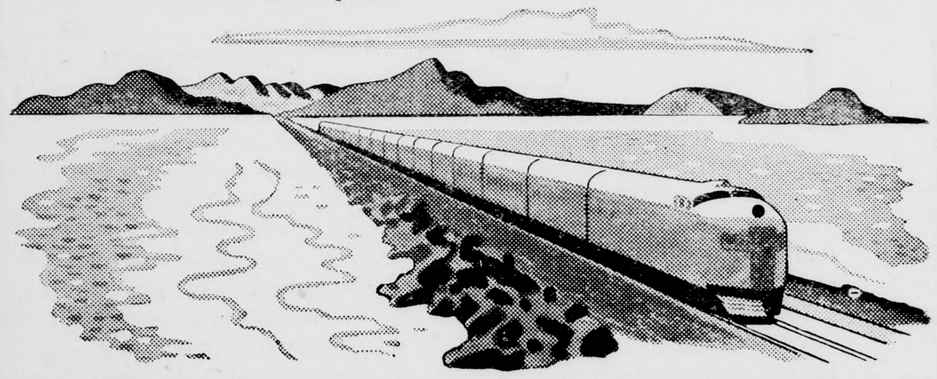
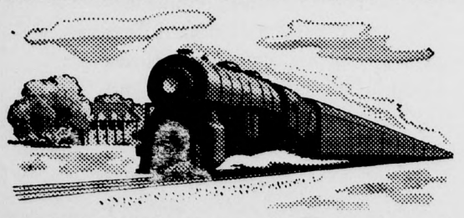
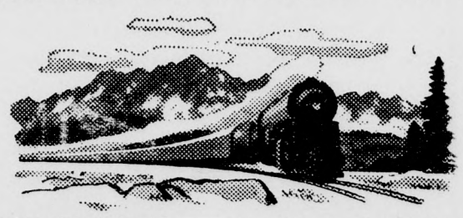
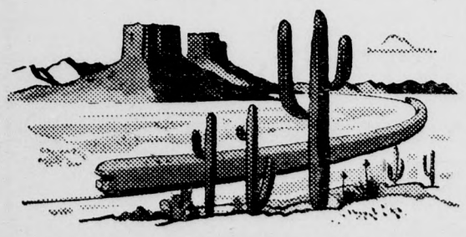
ARE YOU ONLY A THREE-QUARTER WIFE?
MEN, because they are men, can never understand a three-quarter wife—a wife who is all love and kindness three weeks in a month and a hell cat the rest of the time.
No matter how your back aches—how your nerves scream—don't take it out on your husband.
For three generations one woman has told another how to go "smiling through" with Lydia E. Pinkham's Vegetable Compound. It helps Nature tone up the system, thus lessening the discomforts from the functional disorders which women must endure in the three ordeals of life: 1. Turning from girlhood to womanhood. 2. Preparing for motherhood. 3. Approaching "middle age."
Don't be a three-quarter wife, take LYDIA E. PINKHAM'S VEGETABLE COMPOUND and Go "Smiling Through."

How to SEE TWICE AS MUCH on your trip EAST


It's as simple as A, B, C
A. Southern Pacific offers you a choice of *Four* Scenic Routes to the East instead of just one, like most railroads. Pick the two routes that interest you most.
B. Go East on *one* of these routes and return on the *other*.
C. Result: you see an entirely different part of the United States each way. You see *twice* as much for little or no extra rail fare!


FOR EXAMPLE, go straight East on Southern Pacific's historic Overland Route, the shortest, fastest way...over the High Sierra, across Great Salt Lake on the spectacular Lucin Causeway and through the Rockies. Ride the swift Streamliner *City of San Francisco*, the *Forty-Niner*, the luxurious, all-Pullman *Overland Limited*, scenic *Pacific Limited* or money-saving *San Francisco Challenger* (all chair car and tourist train with 25¢-30¢-35¢ meals, stewardess-nurse, etc.). Return, if you wish, on one of these other routes...


SUNSET ROUTE brings you back through the picturesque Old South and romantic New Orleans, Houston, San Antonio, El Paso (Carlsbad Caverns National Park), Southern Arizona and Los Angeles. (Between New York and New Orleans, first class and tourist tickets are good on Southern Pacific's famous *S. S. Dixie*, plus small additional fare.)


SHASTA ROUTE connects with northern transcontinental lines and speeds you to California through vast evergreen forests, sparkling lakes and snow-capped mountains. From Medford or Klamath Falls you can enjoy a memorable side trip to Crater Lake National Park. (An alternate tour by rail and motor coach shows you the Redwood Empire.)


GOLDEN STATE ROUTE brings you back through the Middle West, El Paso, the Mexican Border country and Los Angeles.
NEW YORK AND BACK
$90 in air-conditioned chair cars and coaches.
$119.85 in air-conditioned tourist sleeping cars (plus berth charge).
$135 in luxurious air-conditioned standard Pullmans (plus berth).
TAKE YOUR CAR! Ask about low rates for taking your automobile along. You ride fast trains, your car goes fast freight.
For booklets and information about a trip East, telephone or write—
